

ATLANTIC NOx NEUTRALISER

Product Description:

Selective catalytic reduction (SCR) is a means of converting nitrogen oxides, also referred to as NOx with the aid of a catalyst into diatomic nitrogen, N₂, and water, H₂O. Atlantic's NOx Neutraliser has been specially formulated for use in Passenger Car/ Light Commercial & Heavy Duty Diesel Engines employing the latest SCR NOx Reduction Systems. Atlantic's NOx Neutraliser is manufactured using Laboratory Grade anhydrous ammonia and special additives to prevent freezing at low temperatures. Reduces harmful oxides of nitrogen by 75% - 95% ensuring current emission standards are met.

Features and Benefits:

- Reduces NOx emissions
- Odorless & Non Toxic

Typical Data:

Test Description	Results
Appearance	Colourless clear liquid
Incipient crystallization:	-11.5°C
Viscosity (at 25°C)	1,4m Pa-s
Thermal conductivity (at 25°C)	approx..0.570 W/m-K
Specific heat (at 25°C)	approx..3.40 kJ/kg-K
Surface tension (at 20°C)	min. 65mN/m

Specifications/ Performance Levels:

- DIN 70070
- ISO 22241

PACK SIZE	PRODUCT CODE
20 Litre	NOX00002
200 Litre	NOX00004
1000 Litre	NOX00005

Do not add to fuel. Pour into dedicated tank/ reservoir only.

All recommendations for the use of our products, whether given by us in writing, verbally, or to be implied from the results of tests carried out by us, are based on the current state of our knowledge. Notwithstanding any such recommendations the Buyer shall remain responsible for satisfying himself that the products as supplied by us are suitable for his intended process or purpose. Since we cannot control the application, use or processing of the products, we cannot accept responsibility, therefore. The Buyer shall ensure that the intended use of the products will not infringe any third party's intellectual property rights. We warrant that our products are free from defects in accordance with and subject to our general conditions of supply.
